◆ Latest AI developments

6 stories

1. AI agents being tested by OpenAI involved in cyber-attack on another service, say researchers

WHAT HAPPENED

Two months before hacking Hugging Face, malicious packages authored by internal OpenAI agents were uploaded to RubyGems. Agents being tested by OpenAI uploaded hundreds of malicious packages in a cyberattack on software service RubyGems in May, two months before they hacked open-source platform Hugging Face, the company confirmed Friday. It's the latest revelation of cyberattacks linked to major artificial intelligence developers such as OpenAI and Anthropic.

SIMPLY EXPLAINED

Jargon in this story: **ai agent** — an AI system given tools and permission to take actions, not just answer questions.

WHY IT MATTERS

Security incidents rarely stay contained. The immediate question is who else uses the same software or service and is therefore exposed. Covered by 6 separate outlets in the last day.

Sources: [Guardian World](#) · [Reuters](#) · [The Guardian](#) · [The Information](#) · [ET Telecom](#) · [Deccan Chronicle](#)

2. Anthropic blocks possible attempt to use AI to make biological weapons

WHAT HAPPENED

The revelations in Anthropic's threat intelligence report come after a former top researcher at the company warned of the risks of AI to humanity. The findings, made in the firm's

recent threat intelligence report, is the latest in a growing series of warnings from AI researchers and industry insiders about the technology's potential risks to humanity .

SIMPLY EXPLAINED

No specialist jargon detected here — the summary above is the whole of it, in ordinary language.

WHY IT MATTERS

Armed conflict drives energy prices, refugee movements and alliance commitments far beyond the immediate region. Covered by 29 separate outlets in the last day.

Sources: [BBC World](#) · [Ars Technica](#) · [BBC](#) · [Al Jazeera](#) · [news.sky.com](#) · [Zamin.uz](#)

3. AI regulation calls grow in DC after researcher's extinction warning

WHAT HAPPENED

Trump said he isn't concerned AI could cause human extinction as researchers at leading AI companies warn about rapid advances and lawmakers propose safeguards. Members of Congress are calling for AI regulation after a researcher warned that OpenAI and Anthropic are acting irresponsibly.

SIMPLY EXPLAINED

No specialist jargon detected here — the summary above is the whole of it, in ordinary language.

WHY IT MATTERS

This is a rules story. Regulation and court decisions set the boundaries of what companies in the sector are allowed to build, sell or collect — the effects usually show up months later. Covered by 9 separate outlets in the last day.

4. Nvidia may anchor Anthropic's \$2 trillion IPO. It is also the supplier

WHAT HAPPENED

Nvidia is considering investing up to US\$10 billion in Anthropic's IPO, one source said. The logo of Nvidia, as seen at its corporate headquarters in Santa Clara, California, in May 2022. (File photo: Nvidia via Reuters) Anthropic is in talks to bring Nvidia as an anchor investor into what could be the largest IPO in history, two people familiar with the matter told Reuters.

SIMPLY EXPLAINED

Jargon in this story: **ipo** — initial public offering — a company listing its shares on a stock market.

WHY IT MATTERS

Diplomacy is where the next few months get decided. What is agreed — or not — here sets the conditions everything else in the region runs on. Covered by 14 separate outlets in the last day.

Sources: [Reuters](#) · [Finimize](#) · [CNA](#) · [finance.biggo.com](#) · [BusinessLine](#) · [TradingView](#)

5. FM Sitharaman voices concern over AI safety after researcher's resignation

WHAT HAPPENED

No summary text came through the feeds. How other outlets put it: Livemint — “Anthropic researcher Jacob Coxon quits over AI safety: What he warned and how OpenAI, Anthropic reacted”; Asianet Newsable — “AI safety: Sitharaman flags concerns after Anthropic researcher quits”; [moroccoworldnews.com](#) — “Former Anthropic Researcher Jacob Coxon Details Fears AI Could Become Impossible to Control”.

SIMPLY EXPLAINED

No specialist jargon detected here — the summary above is the whole of it, in ordinary language.

WHY IT MATTERS

Changes in who holds power move policy, spending and alliances, which is what makes domestic politics an international story. Covered by 8 separate outlets in the last day.

Sources: [LatestLY](#) · [Livemint](#) · [Asianet Newsable](#) · [moroccoworldnews.com](#) · [India.com](#) · [Amherst Indy](#)

6. OpenAI makes U-turn and calls for binding national AI safety rules

WHAT HAPPENED

No summary text came through the feeds. How other outlets put it: BankInfoSecurity — “OpenAI Calls for Mandatory National AI Safety Rules”; ET Enterprise AI — “OpenAI backs binding AI safety rules in policy U-turn”.

SIMPLY EXPLAINED

No specialist jargon detected here — the summary above is the whole of it, in ordinary language.

5 stories

1. How global trade and oil prices could be hit by Houthi advance

WHAT HAPPENED

Yemen's Houthis have seized territory near the Bab al-Mandab Strait - a key trade gateway for oil and global shipping. The Iran-backed Houthis are also reported to have seized Perim - a strategic island on the major shipping route. The capture by the rebels of a stretch Yemen's strategic coastline is the group's most impressive military coup for several years.

SIMPLY EXPLAINED

No specialist jargon detected here — the summary above is the whole of it, in ordinary language.

WHY IT MATTERS

Armed conflict drives energy prices, refugee movements and alliance commitments far beyond the immediate region. Covered by 28 separate outlets in the last day.

Sources: [BBC World](#) · [New York Times World](#) · [Guardian World](#) · [Politico EU](#) · [Al Jazeera](#) · [NPR World](#)

2. UK MPs reject bill legalizing assisted dying bill despite previous support

WHAT HAPPENED

The House of Commons opposed helping terminally ill adults to end their lives despite previous votes endorsing the social change. MPs today voted not to approve the assisted dying bill at its second reading. The bill, which was brought back to the Commons after being blocked in the Lords, would have allowed terminally ill people to end their lives with medical help in some circumstances.

SIMPLY EXPLAINED

No specialist jargon detected here — the summary above is the whole of it, in ordinary language.

WHY IT MATTERS

Economic pressure between states redirects trade flows and raises costs, usually for companies and consumers well outside the countries involved. Covered by 23 separate outlets in the last day.

Sources: [Politico EU](#) · [Guardian UK Politics](#) · [bloomberg.com](#) · [The Hill](#) · [The Kyiv Independent](#) · [Ukrinform](#)

3. Saudi Arabia shuts key oil pipeline after drone attack launched from Iraq

WHAT HAPPENED

Iraq removes a military commander and opens investigations into the attack that came from an area bordering Iran. Riyadh has increased its use of the East-West pipeline since the start of the Middle East war to bypass the closure of the strait of Hormuz. Saudi authorities said Friday drones launched from Iraq led to the temporary closure of a crucial oil export route used to bypass the lockdown of the strait of Hormuz.

SIMPLY EXPLAINED

2. Where should Apple go after the iPhone Duo? Bring on smaller and larger foldables

WHAT HAPPENED

Come on Apple, just keep following in the footsteps of Samsung, ASUS and so many other foldable makers. This all seems obvious, of course. Now that Apple has shown it can develop ultra-thin device connected by a sturdy hinge, it should be easier for the company to scale its designs smaller and larger.
